Sufficient Stock has Been Subscribed To Carry Project Through. Part Of Big Building Movement.

Plans are being completed for the immediate construction of a modern fire proof hotel for Monett and the business men of the town are enthusiastic over the prospects of having a hotel that will be second to none in Southwest Missouri. The proposed building is to cost \$200,000, to be five stories high and to include in the plans a modern theatre to be used for high class road shows.

Monett has not now sufficient hotel accommodations for the traveling public and the advantage to the community of a modern hostelry is recognized by all.

Don't Envy Them

Do you envy some neighbor who seems to be getting along a little better than you do?

The chances are that his success is due to some special plan which you can adopt with equal success.

Your neighbor's handsome bank account is the result of many small deposits made often. That plan is easy but it pays handsomely.

There are many people passing our bank every day with money in their pockets that might easily be put away at interest.

But because these amounts are small they are not saved—and the loss goes on for a life time.

We always welcome the small regular deposits of all who are willing to adopt this system—it means sure success in due time.

Think it over.
